Bilateral Meetings

- Friday (9:00 a. m. - 17:00 p. m.)

Description

LogiN is a software company, established in the 1996 and employing 28 high qualified professionals. Its field of work is almost exclusively project engineering, building, implementing and maintaining business systems. The company's specialties are development and optimization of integral business-information systems, or ERP solutions, used like management systems in companies from retail, production, utilities and hospitality and catering business areas. Besides the positive growth trend and new products development, the success and the constant progress of our company is confirmed by numerous prizes, awards and certificates. The company is Oracle Gold Partner from 2003 and since 1996 LogiN is successfully placing its products on Croatian and other foreign markets. According to the IDC Adriatics study for 2013 LogiN is one of the TOP 5 ERP-vendors in Croatia following Microsoft and SAP solutions. The company is certified with ISO 9001:2008 norm, and since this year we are one of the few companies in Croatia with ISO27001 certificate for information security.
